

Range Mental Health

HOMELESS YOUTH PROJECT

'Kate' is 18 years old and living in the homeless shelter in Virginia. She was recently the victim of rape and physical abuse. She didn't have a safe place to go so she accessed the shelter.

With the help of the United Way and their contributions to RMHC's Homeless Youth Program, she has been able to receive the support she needs to access mental health services, find employment, and get into an apartment.

'Kate' is also enrolled at Mesabi Range College and pursuing her AA degree. With the support of the United Way, RMHC was able to assist 'Kate' with her deposit for her apartment, clothes for her interview and job, supplies for college, and ongoing case management services.

Without United Way's contribution to the Homeless Youth program 'Kate' would not have been able to receive the support she needed.
